

**Operation Youth Success  
School Based Arrest**

Tuesday, March 8, 2016

4:00-4:45 pm

UNO Community Engagement Center

- Welcome
- Data Discussion with OPD
  - Met with OPD on 3/2/16
  - ‘Arrest’ Data is collected by OPS directly from the SRO
  - This should make the data as valid/vetted as needed to get base line and change numbers.
  - OPS determines what a ‘school arrest’ is – no need to determine hours/location/badge number etc.
- Suggestion to focus on attitude shift/school climate for SBA data collection
  - Populations to survey: SRO, Administration, Miscellaneous Staff, Students
    - Potential to look at All SROs but specifically look at Admin, Staff and Students from OPS Pilot Schools
  - Avenues to collect data:
    - Pretest/Posttest
    - What will NASRO complete- will they complete anything?
    - Strategies for Youth – Do they conduct pre/post tests of the SRO or schools with their review? - Amber following up
  - Potential Items to Collect:
    - School Climate
    - Policy Change
    - School Safety Perceptions

**Possible Significant Findings:**

- Pilot Project in South/Blackburn may or may not be the catalyst for arrest data change
- Is there a difference in Policy/SRO change in buildings with the pilot but not in buildings without?
